

MAGDALENA RESERVADO

Cañete - Ica Valley, Peru

WINERY

Our Cañete vineyards are located on the desert coast of Peru alongside the Cañete River, 3.5 km from the coastline. The soil consists of sandy loam and alluvial subsoil with gravel. The climate is desert, seashore weather with sunny summers tempered by the proximity of the sea. Sea breezes provide mineral notes and complexity to our wines. We use gravity irrigation and harvest is done by hand.
