

ENRIQUE FOSTER MALBEC RESERVA

D.O. Mendoza

WINERY

Our construction began by digging out a huge crater of more than 6000 cubic meters to create cellars which will accommodate up to 2000 barrels. The cellars were then totally buried under tons of earth and highly-insulating pumice stone to assure a constant temperature and humidity ideal for the ageing of our without the use of air conditioning. We buy our barrels of French oak from Seguin Moreau and Taransaud; we may introduce some American oak in the future.

Name:	Enrique Foster Malbec Reserva
